Hard Skills

- Front-End Technologies
 - React.JS
 - TypeScript
 - JavaScript
 - Redux Toolkit/ Sage
- CSS
 - Bootstrap
 - Tailwind
 - Styled Component
- Back-End Technologies
 - Express.JS
 - PHP
- Database Systems
 - MongoDB
 - MySQL
- GitHub version controller (Git)
- Docker
- Netlify

Soft Skills

- Communication
- Problem-Solving
- Time Management
- Teamwork
- Organization
- Adaptability
- Creativity
- Leadership

Language Skills

- English
- Amharic

Educational Background

- Certificate with Full Stack developer from Ethio Digital Academy PLC
- BSc. Degree from Haramaya University

Work Experience

- **Ethio Digital Academy PLC**
 - Web Design and Development
 - Developed an ERP System for AMON PLC.
 - Key roles at the company: Team Leader, Front-end developer, UI designer, Back-end developer and database design

Projects

Project Title: [Event Scheduler with Complex Recurrence Patterns](#)

Role: Full Stack Developer

Technologies: React, Node.js, Express.js, MongoDB, Redux, TypeScript

- Developed a fully responsive web application for scheduling events with complex recurrence patterns (e.g., daily, weekly, and custom rules like "every third Thursday").
- Implemented user authentication, allowing secure logins, event management (create, edit, delete), and viewing options in calendar and list views.
- Built efficient backend logic for handling recurring events, complex rules, and CRUD operations.
- Ensured seamless user experience with form validation, responsive UI, and accurate event scheduling.

Project Title: [Music Streaming App](#)

Role: Full Stack Developer

Technologies: React, TypeScript, Redux Toolkit, Redux-Saga, Express.js, MongoDB, Docker, Netlify, Render

- Developed a fully responsive music streaming application with advanced filtering (by genre, album, artist) and real-time user interactions.
- Managed state using Redux Toolkit and Redux-Saga, ensuring smooth handling of side effects.
- Built the backend using Express.js and MongoDB, implementing full CRUD functionality for user preferences and music data.
- Deployed frontend on Netlify and backend on Render, using Docker for scalable deployment..

Summary

- I am a highly motivated junior web developer with one year of experience developing web applications and ERP systems. And an avid learner, quick to grasp new technologies to design efficient and scalable products.
